S. T.—1860.—X—The amount of Plantation Bitters sold in one year is something startling. They would fill Broadway six feet high, from the Park to 4th street.—Drake's manufactory is one of the institutions of N. York. It is said that Drake painted all the rocks in the eastern States with his cabalistic "S.T.—1860.—X," and then got the old granny legislators to pass a law "preventing disfiguring the face of nature," which gives him a monopoly We do not know how this is, but we do know the Plantation Bitters sell as no other article ever did. They are used by all classes of the community, and are death on Dyspepsia—certain. They are very invigorating when languid and weak, and a great appetizer.

WHAT DID IT?—A young lady, returning to her country home after a sojourn of a few months in New York, was hardly recognized by her friends. In place of a rustic, flushed face, she had a soft, ruby complexion, of almost marble smoothness; and instead of 22, she really appeared but 17. She told them plainly she used Hagan's Magnolia Balm, and would not be without it. Any lady can improve her personal appearance very much by using this article. It can be ordered of any Druggist for only 50 cents.

WHY?

BY WILDE.

Why did I give my heart away?
Gave it so lightly, gave it so gay,
On that joyous summer day,
Why did he beg me to be his bride,
And vow to be ever by my side,
While life flowed on with its ebb and tide?

Why did he gently smooth my brow,
And look to Heaven and make the vow
That I should ever be cherished as now?
And e'en the day I stood by the shrine,
Watching for barks that came—nevermore,
Hearing nought but the wild wind's ceaseless roar,

Why, then, did a vision come o'er the sea,
Of one alone in agony,
Alone in hopeless misery?
Why, when Earth seemed bright and gay,
Did a fearful storm sweep over the day,
And the ornate splendor pass away?

Why was it but a presage of the storm,
That came to me in my life's bright morn,
And left Love's offering bleeding and torn!
Why did he leave me to watch for the light
That came as a weary, crushing blight,
And settled down to dark, blank night?

Why were our loves so strangely crossed?
Why by life's waves so pitilessly tossed?
Why was Joy born—if but to be lost?
Why was I strange and wierd and wild?
Ah, me! why was I Destiny's child?
A Destiny wicked, fierce and wild.

Why are some hearts, from their natal hour,
Crushed by a secret, unseen power;
With a sombred life as their only dower?
Ah! why? Ask the spirits who vigils keep
O'er the long, last dreamless sleep
Of hopes, buried in Fate's dark deep.

Who can know the mystery
Of the heart's unwritten history?
Of a life that's steeped in misery?

The Poor Musician and his Mate.

One beautiful summer day there was a great festival in the large park at Vienna. This park is called by the people the Prater. It is full of lovely trees, splendid walks, and little rustic pleasure houses. At the time of which I am speaking there were people there, some young and some old, and many strangers too. And all those who were there enjoyed such a scene as they had probably never beheld before. Be that as it may, the Prater was almost covered with the crowds of people. Among the number were organ grinders, beggars, and girls who played on harps. There stood an old musician. He had once been a soldier, but his pension was not enough to live on. Still he didn't like to beg; therefore on this particular festival day he took his violin and played under the old tree in the park. He had a good faithful dog along with him which lay at his feet, and held an old hat in his mouth so that passers by might cast coins in it for the poor old man.

On the day of the festival which I have now mentioned, the dog sat before him with the old hat. Many people went by and heard the old musician playing, but they didn't throw much in. I wonder the people did not give him more, for he was truly a pitiable object. His face was covered with scars received in his country's battles, and he wore a long gray coat, such as he had kept ever since he had been in the army. He even had his old sword by his side, and would not consent to walk in the streets without carrying his trusty friend with him. He had only three fingers on his right hand, so he had to hold the bow of his violin with these. A bullet had taken off the two others, and almost at the same time a cannon ball had taken off his left leg. The last money he had, had been spent in buying new strings for his violin, and he was now playing with all his strength the old marches he had learned so often when a boy with his father. He looked sad enough as he saw the multitudes pass by in their strength and beauty, but whenever they laughed it was like a dagger to his soul, for he knew on that very evening he would go to bed supperless, hungry as he was, and lie on a straw couch in a little garret room. His old dog was better off, for he often found a bone here and there to satisfy the cravings of hunger. It was late in the afternoon, his hopes were almost like the sun—they were both going down together. He placed his old violin down by his side, and leaned against an old tree. The tears streamed down his scarred cheeks. He thought that none of that giddy crowd saw him, but he was much mistaken. Not far off stood a gentleman in fine clothes who had a kind heart. He listened to the old musician, and when he saw that no one gave him anything, his heart was touched with sympathy. He finally went to the dog, and looking into the hat saw only two little copper coins in it. He then said to the old musician,

"My good friend, why don't you play longer?"

"Oh!" replied the old man, "my dear sir, I cannot; my poor old arm is so tired that I can't hold the bow; besides I have had no dinner, and have little prospect of supper."

The old man wiped his feeble hands. The kind gentleman with whom he talked resolved to aid him as best he could. He then gave him a piece of gold and said:

"I'll pay you if you will loan me your violin for one hour."

"Oh," said the musician, "this piece of money is worth more than a dozen fiddles like mine."

"Never mind," said the gentleman; "I only want to hire it one hour."

"Very well, you can do what you will," said the owner.

The gentleman took the fiddle and bow in his hands and then said to the old man:

"Now, my mate, you take the money, and I will play. I am sure people will give us something."

Now, was not that a singular musical association? They had just become acquainted, and immediately entered into an arrangement to work together for the public. The strange gentleman began to play. His mate looked at him with great wonder; he was so stirred that he could hardly believe it was his old violin that such beautiful sounds came from. Every note was like a pearl. The first piece had not been finished before the people, observing the strange sight, and hearing wonderful music, stopped a moment in curiosity. Every one saw that the fine looking gentleman was playing for the poor man, but none knew who he was.

By and by the people began to drop money into the hat, and the old dog seemed delighted to receive so many pieces of gold for his master. The circle of hearers became larger and larger. Even the coachman of the splendid carriages begged the people inside to stop and hear the music. Still the money increased. Gold, silver and copper were thrown into the hat by old and young. The old dog began to growl. What in the world could be the matter? One gentleman as he dropped a large piece of money into the hat, had struck him on the nose, and he came very near letting the hat and money fall. But it soon became so heavy he could not hold it any longer.

"Empty your hat, old man," said the people, and we will fill it again for you."

He pulled out an old handkerchief and wrapped the money in it, and put it in his violin bag.

The stranger kept on playing, and the people cried out, "Bravo! bravo!" in great joy. He played first one tune, and then another—even children seemed carried away with rapture. At last, he played that splendid song, "God bless the Emperor Francis!" All hats and caps flew off their heads, for the people loved their Emperor. The song finally came to an end. The hour was ended, and the musician handed back the violin to the old man.

"Thank you," said he. "May God bless you!" and he disappeared in the crowd.

"Who is he? Who is he?" said the people. "Where does he come from?"

A certain person sitting in one of the coaches said.

"I know him. It is Alexander Boucher the distinguished violinist. It is just like him. He saw the old man needed help, and he determined to help him in the best way he could."

The people then gave three cheers for Boucher, and put more money in the old man's hat. When he went home that evening he was richer than he had ever been before. When he went to his bed he folded his hands and prayed God might bless good Boucher, so that when he should get to be an old man he might have good friends.

Now, I believe that there were two happy men that night in Vienna. Of course, the poor old musician rejoiced now that he was out of want; but of more value to him than all his money was the consolation that somebody had proved a friend to him. For it does us all good to know that we have friends, even though they are of no farther advantage to us. There was another who was happy, and that was the good man Boucher. How could he go to bed that night without thanking God for putting it into his heart to be kind to the friendless, starving soldier?

Next to the benefit which our good deeds confer, is that which they confer on ourselves.

Now, children, this is a big world. Look around you, and you will always find that you can do something to make this world of ours better, as well as ourselves happier.

NOT THE GIFT, BUT THE MOTIVE.—The spirit in which our Lord receives gifts of his disciples, is well illustrated by the following anecdote:

A poor Arab traveling in the desert met with a spring of clear, sweet, sparkling water. Accustomed as he was to brackish wells, to his simple mind it appeared that such water as this was worthy of a monarch; and filling his leathern bottle from the spring he determined to go and present it to the calif himself.

The poor man traveled a considerable distance before he reached the presence of his sovereign and laid his humble offering at his feet. The calif did not despise the little gift brought to him with so much trouble. He ordered some of the water to be poured into a cup, drank it, and thanking the Arab with a smile, ordered him to be presented with a reward. The courtiers around pressed forward, eager to taste of the wonderful water; but, to the surprise of all, the calif forbade them to touch a single drop.

After the poor Arab had quitted the royal presence with a light and joyful heart, the calif turned to his courtiers and thus explained the motives of his conduct: "During the travels of the Arab," said he, "the water in his leathern bottle had become impure and distasteful. But it was an offering of love, and as such I have received it with pleasure. But I well knew that had I suffered another to partake of it, he would not have concealed his disgust; and therefore I forbade you to touch the draught lest the heart of the poor man should have been wounded." In such love will our Lord receive our poor gifts.

☞Why are corn and potatoes like the idols of old? Because the former have ears and hear not, and the latter eyes but see not.

☞Nothing so much destroys our peace of mind as to hear another express an intention to give us a piece of his.

What Buttons have Done.

The *Round Table* tells us what Buttons have done: "We must go back nearly forty years. Then all buttons used by Americans were imported. But a shrewd Yankee lady, the young wife of a man in humble circumstances, was seized with the idea of manufacturing buttons at home and by hand. She picked some imported buttons in pieces, and was satisfied that with wooden molds she could produce buttons that would find as good a market as the imported ones. Her idea was seconded by her husband, who was a thrifty farmer in a country village in Western Massachusetts. A few buttons were made and were sold. The same hand made more, and these found a ready market. Little by little, month after month, the idea grew until the persistent had more than she could do herself, and laborers were employed to assist in the manufacture. The husband, finding himself outdone, abandoned farming and devoted his energies to the new business. Machinery was dsvised to accelerate matters. A factory was built. The enterprise grew with amazing proportions. Other factories went up. A village clustered around the button enterprise. Wealth flowed in on the proprietor. Factories were built for making suspenders, for making India rubber webbing, and factories for cotton spinning. With every year the project grew apace until the proprietor could be named among the millionaires.

Out of the proceeds of the button manufacture a seminary was established, which is doubtless at the head of schools for young men in this country. A church was built, and accidentally burned. Another was built, and shared a similar fate. A third was built without delay, each being handsomer than its predecessor. A college was in trouble. The proceeds of buttons came to its relief and placed it upon enduring foundations—a college that has sent its men around the world to do good and help civilize. A young ladies' seminary was the next plan—the first of any account in this country. Again the button purse flew open, and the school that has been a model for at least half a dozen others was firmly founded. And all this time very few outside of these villages knew who was doing it all. In fact, we know of no instance where so much has been done by an individual without its being trumpeted to the world. Nor have we mentioned half of the benefactions which came from the button success. A college in the West was helped to a permanent footing. A ladies' seminary in the West was also kindly remembered. A college in Syria, having the grandest plan at its foundation, was generously aided. And all the time new buildings were being added to the institutions which he had chiefly established, and for which we had supplied the money. During the past season he has completed a great factory at a cost of not far from half a million, and is now erecting a splendid dormitory building in connection with the school which bears his name. This is in part what buttons have done and are doing.

Many persons will like to know the name of the "button prince"—some few have already divined it—the name of Samuel Williston, of Easthampton, Massachusetts. In all these years of noble deeds and ever increasing success Mr. Williston has shunned publicity, and we know he will feel no pleasure at seeing his name used in this way. He is now seventy years of age, but still manages all his own affairs and executes details with wonderful energy.

WHY WOMEN CANNOT ENTER MASONIC LODGES.—When King Solomon was still a young man he had married his seventh wife. She was a beautiful young Ammonitess, with locks, as black as the raven's wing, and eyes as bright as the eagle's. It was believed that she was the favored one among all the sultanas of the Great King; for his affections were not divided then as they afterwards became. She knew her power, and used it unsparingly. In addition to her other qualities, she was as inquisitive as ever was a woman on this earth.

One evening King Solomon attended lodge on some grand occasion, and stayed out somewhat late. When he returned home, he found the fair Ammonitess in the dumps, and pouting just as the dear wives of Masons do sometimes now when their lords stay out late at the Lodge. She upbraided him with neglecting her, insinuated that he hadn't been to the Lodge as he pretended, and insisted that in future he should give proof that he went there by having herself initiated, so that she might go there and watch him.

"Daughter of Ammon," replied the King, "thou hast behaved thyself as one of the foolish women, in presuming to question thy lord and master. Thou art not so angry with me as thou pretendest to be; for the true reason of this behaviour is thy insatiable curiosity, in which thou excellest Eve herself. Know then, that I here ordain that neither thou, nor any of thy inquisitive sex after thee, ever enter the portals of a Masonic Lodge; but I shall enjoin the Tyler to pierce through with his drawn sword any woman that shall attempt to enter a lodge; aye, even Thee, Queen of Israel though thou be." And that ordinance of this wisest of monarchs has continued in force until this day.

We hope, now, that we have satisfied the curiosity of our fair readers as fully as did King Solomon that of his Queen.—*Norfolk Journal.*

The Last Man in a Barber Shop.

We have seen many illustrations of misery, many that move the hardest heart to pity; nothing can be more touching to an observer, nothing better defines misery, than a man in a barber shop, with a dozen or so ahead of him, waiting to be shaved. It is impossible for any one who has never experienced it, to know how much nerve is required to pass successfully through this ordeal. Different natures, of course, experience different degrees of misery as they wait. "The poor but virtuous young man, struggling with a moustache," [the fading hue of which has brought him again to the tonsorial artist,] having an engagement with "Susan"—who has told him, "anything but a feller as isn't on time"—can probably be put down as the subject of most abject wretchedness and despair, as he enters and looks around upon "*les miserables*" who are ahead of him, the last of whom mingles with his misery a grim satisfaction that some one comes after him.

The young man would rather dye at once than be subjected to the suspense he must endure. Talk of ambition; of fame, as she beckons from afar to the midnight porer over volumes filled with learning and wisdom, or to the warrior as he cuts his way with his sword and wades through seas of blood to her shining goal! The scholar's ambition fades to insignificance, and the soldier's dream of glory vanishes before the mighty yearnings of the last man in the barber shop, waiting for his turn. No goal but the cushioned chair does he see, "so near and yet so far."

There is music to him in the barber's low "next," as it lessens the distance between him and his ambition's goal; and when it finally appeals to him, he experiences a joy that the honied words of flattery fail to bring to him who has found fame. Enforce the Maine law, prohibit tilting hoops, make dry street crossings, &c., &c., and we will submit, but "deliver us, good Lord" from being the last man in a barber shop.

Would Have His Way.

I send you another example of the misguided love of *parents*, and I think such cases could be multiplied. Some years ago, I was dining with a gentleman and lady, whose only child, a boy some four years old, was seated at the table with us; he became clamorous, and must be waited on first. Pa tenderly inquired, "What will you take, dear? Shall I give you some chicken?" The child pouted, "No, I want some of *that*," pointing to another dish. Ma said, "Oh, darling, that is not good for you." The little darling cried lustily, and persisted in having *that* or nothing. So the lady gave her child that which she *knew was bad* for him, remarking to me, in an apologetical tone, "he is so positive we always let him have all he wants, for the sake of peace." I ventured to remark, "I hope the peace thus obtained will be permanent; sometimes children who are suffered to have all they *think* they want, become selfish and ungovernable." The parents thought their child was not in any danger, for as he grew older pride would come to his aid, and he would act differently.

Time rolled on; I watched the result, marked the growth of those seeds of misrule. They have blossomed, and are bearing fruit. That child, not yet grown to manhood, is now, for the second or third time, in prison for taking that which belonged to another. He wanted it, and would have it. "Poor child!" does he not claim our pity?

☞A great wonder is the "Walled Lake," in Wright county, Iowa. It is from two to three feet higher than the earth's surface around it, and enclosed by a wall ten feet high, fifteen feet wide at the bottom, and at the top five, made of stones weighing from three tons to one hundred pounds each. There is an abundance of stones in Wright county; out surrounding the lake, to the extent of five or ten miles, there are none. No one knows how or by whom the wall was built. Around the lake is a belt of oak woodland, half a mile in width. With this exception the country is a rolling prairie. The trees, therefore, must have been placed there at the time of building the wall. In the spring of 1846 there was a great storm, and the ice on the lake broke the wall in several places, and the farmers in the vicinity were obliged to repair the damages to prevent inundation. The lake occupies a ground surface of 2800 acres, depth of water as great as twenty-five feet. The water is clear and cold; soil sandy and loamy. It is singular that no one has been able to ascertain where the water comes from, and where it goes, yet it always remains clear and fresh.

TOOK THE HINT.—A little girl of three years, who had disobeyed her parents, was ordered to go and sit on the cellar stairs, for punishment. The little thing obeyed, and after she had been seated there for some time, her father opened the door and asked her if she was not ashamed. The little girl, with tears in her eyes and finger in her mouth, replied: "Yes."

"What are you ashamed of?" asked her father.

"I am ashamed of my pa," she replied.

The kind hearted father appreciated the answer, and released her from imprisonment.

SNOOKS says the words "No Cards" are affixed to marriage notices because the parties played all their cards before marriage. This is a new theory, and will be generally accepted.

Temperance Topics.

"I was Drunk."

Some few years ago, at the close of a youth's temperance meeting, held on the west side of the city, I went up to a group of young lads and asked them if they would sign the pledge. Some of them consented; but one said, "Oh, no. I am not going to sign away my liberty; I am not going to be unsocial, I intend to enjoy life." We tried to reason with the young lad, but in vain; he said he was not going to sign away his liberty.

We parted; I did not see James at the temperance meeting again. Some short time after, a person called at my store, with a request that I would go down to the Tombs to see a boy there. I went down with this friend, and, on entering a cell, found a boy—for he was only some sixteen years of age—in deep distress. It was James R——, who had told me at the temperance meeting that he would not sign away his liberty; and there he was, found guilty of *murder*, and condemned to die.

The meeting was indeed a sad one. With bitter tears, he begged me to go to Albany and try to get a pardon.—"Oh!" says he, "I was drunk. I know nothing about it." With some companions he had been drinking on Saturday evening, and, going along one of the streets on the west side of the city, they had insulted a man who was going home with his wife, and on the man remonstrating with them, they set upon him and murdered him. By whose hand the fatal blow was struck James knew not; he remembered nothing; he was *drunk*.

He was, however, the only one apprehended. He was tried, found guilty, and condemned. It was in vain, with others, we sought a pardon; an example must be made, so many murders about that time had been committed, and James must die. And thus he would not sign away his liberty, as he called it, by signing the temperance pledge, had his liberty cut off three weeks after, and soon after his life signed away, for indulging in those drinks we besought him to let alone.—*Youth's Temperance Banner.*

HOW LIQUORS ARE MADE.—Dr. A. A. Hays, State Assayer of Massachusetts, has been heard before the License Committee at Boston. His testimony is reported in the Boston papers. He explained the method of analyzing liquors in his office. He then stated that a large proportion of the wine sold is not made from the juice of the grape. There are more impure spirits sold now than at any former period within his knowledge. He could easily tell whether wine had been enforced by brandy or not. The liquors generally sold are manufactured. The seized liquors are generally worse than those which can be bought of the more respectable dealers. New liquors, of a strictly spirituous kind, exert a poisonous influence aside from the alcoholic element. This is the case with immature wines, when compounded from immature liquors chosen for that purpose. The use of liquor diminishes the vital forces and doubtless tends to the shortening life. The witness was asked if he wished to say anything with reference to the medical testimony given for the petitioners, to which he replied that Dr. Clarke had explained the whole subject physiologically in a beautiful manner. The statement that alcohol produces fat, or is a substitute for it, has no sufficient chemical basis. It does not prevent the disintegration of the tissues, but that is not a healthy action. The community would be saved a great amount of misery and crime if alcohol could be banished in all its forms, save enough, in the case of wine, for medical purposes.

A CAUTION TO DRINKING YOUNG MEN.—An old lady, resident of a neighboring place, kept a large family of turkeys, perhaps sixty. She, like a great many other people, thought a great deal of her turkeys, consequently valued them very highly. Opposite her was a large West India goods store. The man one day emptied his cask of cherries, intending to replace them with new. This old lady, being economical, thought it a great pity to have all these cherries wasted, and in order to have them saved she would just drive over her turkeys and let them eat them. In the course of the day the old lady thought she would look after them and see if they were in no mischief. She approached the yard, and lo! in one corner lay her turkeys in one huge pile, dead. Yes, they were stone dead. What was to be done? Surely the old matron could not lose the feathers. She must pick them. She called her daughter and picked them, intending to have them buried in the morning. Morning came and behold there were the turkeys stalking about the yard, featherless enough, as may be supposed, crying "quit, quit," feeling, no doubt, mortified that their drunken fit had been the means of losing their coats. Poor things! if they had said "quit" before they began they would not have been in this bad fix. We would advise all young men who are in the habit of drinking to leave off before they get picked, and to those who do not let every young lady say "quit."

WHAT CHILDREN CAN DO.—A temperance Band of Hope has just been formed in Buffalo, with nearly 500 members. The children are all engaged in bringing in new recruits. One little girl brought in eleven to take the pledge one night; another brought her drunken father four miles to sign; and another brought her mother. One boy brought five; and all are active and earnest in the work. We hope many other little ones in other places will follow their example.

HUNTINGDON, PA.

Wednesday morning, April 10, 1867.

WM. LEWIS, HUGH LINDSAY, } EDITORS.

"I know of no mode in which a loyal citizen may so well demonstrate his devotion to his country as by sustaining the Flag the Constitution and the Union, under all circumstances, and UNDER EVERY ADMINISTRATION REGARDLESS OF PARTY POLITICS, AGAINST ALL ASSAILANTS, AT HOME AND ABROAD."—STEPHEN A. DOUGLAS.

OUR PROPHECIES COMING TRUE.—We repeatedly set forth during last fall that the Constitutional Amendments meant negro suffrage. The Reconstruction Bill for the South has proved it for that section of the country, and the bill of Senator Wilson, which we published a week or two ago, is verifying it for the North. We merely remind our readers of these prophecies (although we are neither a prophet nor the son of a prophet) at this time to convince them that we were not altogether wrong, no matter who said we were. If Wilson, Sumner and Stevens fight for universal suffrage on the line of the Constitutional Amendments it will be no more than what we were teaching the people to expect last fall.

Liberal with the People's Money.

The present Legislature is the most extravagant with the people's money, paid as taxes, of any that has ever met at Harrisburg. Until a final adjournment of that body, it will not be known how much of the taxes, hard to pay, have been thrown away by unworthy Senators and Representatives. The taxpayers, in self defence, will be forced to "change the programme," or still further submit to be robbed of their hard earnings. Just so long as party leaders and party organs can succeed in pulling the wool over the eyes of the voters, will rascality with Senators and Representatives and public officers continue.

THE Legislature of Ohio has sent to the people for decision, at the election next October, an Amendment to the Constitution, so as to make black men voters, and to disfranchise deserters. We believe the same thing was tried in the Pennsylvania Legislature, but three-fifths of the members not consenting, it failed. If negro suffrage does come, we are of the opinion that Pennsylvania, although it is the land of Stevens, will be the last State to confer it. In the meantime our people will get along just as happily and prosperously as those of any other State. The trouble is to know which *party* the negroes would as a majority vote for, and perhaps this accounts for the delay. We believe there are as many Republicans as there are Democrats who are opposed to negroes voting, and if the question was put next October, the negro suffragers would undoubtedly be defeated.

☞Republicans, as well as Democrats, appear to be glad that Congress has adjourned. Why is this? True, some of the more Radical Republicans were anxious that Congress should remain in session, until their every plan had been accomplished; but the more temperate Republicans were anxious for adjournment. The only reason we can assign for this difference of desire is that the thoughtful Republicans, feeling their responsibility under the present situation of national affairs and dreading the straits into which their Radical brethren were precipitating them, were anxious to gain time by adjournment, and ascertain by commingling with their constituents, what their views were. In this, they were sensible. They have followed the beck of Stevens, Sumner, and the other Radicals to a great length already, and we look for a change of tactics when they meet again in July next, after they have heard the views of the people.

☞The American Colonization Society are doing a commendable work, in shipping negroes to Liberia, who are desirous of going. Many of the blacks have already availed themselves of the advantages afforded in what might now be called their own country, and large numbers purpose following their companions. The American white people can apprehend no difficulty from the colored men if they leave for Liberia, where in a republic of their own, they can govern themselves. So long as they remain in America, their lot will be a hard one, as we believe that every new attempt to confer favors upon them will only increase the hostility of the whites against them. Better, far better, is it that they should have a government of their own where they will suffer no molestation. The new republic is said to be prosperous.

CHILD WHIPPING.—It has been scarcely possible to take up a paper lately without coming across an account of one or more acts of fiendish cruelty practiced upon children. Within a few weeks three poor, helpless little ones—two of them mere babies—have been brutally and horribly beaten to death. Some strong measures are required to put a stop to these frightful abuses of parental or delegated power. We have almost come to feel in reading the details of these unnatural crimes that an occasional administration of Lynch law would not be without beneficial effect.

Willing to Swallow the Poison.

The *Mount Union Times* speaking of our new arrangements, says:—

"The politics of the paper will remain as before, the closing paragraph of the editors' announcement declaring that 'If the Republican press continue to endorse or wink at the propositions of the extreme Radicals, the day will soon come when the party will also be in the minority in most of the States in the Union.' This is very cheering intelligence to the Radical party of Huntingdon County, and we commend it to the consideration of those of them who are now giving to *The Globe* their personal and official 'crumbs of comfort.'"

Of course we have no objections to the *Times* endorsing or winking at the propositions of the extreme Radicals but we claim for ourselves the privilege, as we feel it our duty, to neither endorse nor wink at such propositions—propositions the Republican or Union party voters would not endorse if given an opportunity for expressing an opinion at the ballot box. One of the propositions of the extreme Radicals is to force negro suffrage and negro political equality upon the people of the North by action of Congress, without consulting the wishes of the people of the States, and in violation of their constitutional rights. We shall have no objections to negroes voting or holding office if the right is given them by an honest opinion, honestly expressed. If a Republican Congress forces such rights upon the negro, the result will be the defeat of the Republican party in most if not all the Northern States and the success of whatever party is in opposition. We have no desire to see men who united with, and sympathized with the Southern rebels, again placed in power; therefore we oppose propositions calculated to weaken the opposition to an organization which may be controlled by the Vallandighams, the Buchanans, the Biglers, & Co. If we are to be denied the "personal and official 'crumbs of comfort'" at the disposal of the "Radical party of Huntingdon county," because we will not endorse the propositions of the extreme Radicals, be it so; we will not complain. We would rather be free, and right with the people, than to receive all the "crumbs of comfort" a party or a mere partisan could throw in our way. We are happy to know there are enough independent and honestly disposed Republicans and Democrats in the county to support an independent press.

WE have a copy of the Macan (Ga.) *Journal & Messenger*, in which the editor discourses upon the new voting element of the South. After dwelling upon the faithfulness of the innocent negro during the war and the mystical relations that still exist between the former master and slave, the article closes as follows:

"Let us accept negro suffrage as an inevitable fact, not to be resented with impotent malice, nor to be treated with stolid indifference. If the new suffragan is unqualified for the important duties committed to him, it is the part of wisdom that they whose interests are involved with his own, should strive to enlighten his understanding. We cannot be guiltless of any evil consequences which may flow from this last act of a remorseless and cruel party, if to avert them we fail to exhaust every effort we are capable of making."

☞The New York Republican State Committee has declared in favor of "impartial suffrage," at the North as well as at the South. This is consistency, if it amounts to nothing else. The people of the South are forced to accept negro suffrage by the reconstruction bill, but as the North did not need reconstructing, the Radicals are endeavoring to reach it in some other way. Sumner intends calling up a bill with this object at the next session of Congress. It is beginning to appear that States, North as well as South, have no rights which Congress is bound to respect. Let us wait and see what the trap is that the Radicals are so skillfully setting.

☞A despatch from Washington, dated 2d inst., says: The registry of voters in the Third ward commenced yesterday. In this, as in the First and Second wards, the registered blacks largely preponderate over the whites, thus affording unmistakable indications that owing to the apathy of the whites, the blacks will control the next municipal election. We have no doubt that if a negro Mayor was run for that city, he would surely be elected, and this is the turn things are taking.

☞Mellinet, the Master Mason of the Grand Orient de France has addressed a circular to the foreign Masonic powers, inviting Freemasons of every order to participate in a festival to take place the 15th of June next. This re-union of men from all parts of the world, speaking different languages, of different manners and customs, but animated with the same sentiment—the sentiment of brotherhood, will be a very imposing spectacle.

THE total number of hogs packed at all points in the West during the season just past, amounts to nearly two and one half millions. There is an increase over last year of more than seven hundred thousand. Cincinnati has ceased to be the greatest pork market of the country, that honor now belonging to Chicago, which this year packed 635,732 hogs against 463,010 packed at Cincinnati. Illinois stands first as a State in this business, Ohio next, Indiana third, and Missouri fourth. The quality of the pork packed this year is said to be unusually good.

A riot occurred in Luzerne County last week, caused by a strike for higher wages.

Governor Geary gave a public reception at the Executive Mansion on Thursday evening last, to the members of the Legislature, Heads of Departments and other invited guests. Not a drop of liquor was served to the guests. Good for Geary.

There is a rumor, not without foundation, that Great Britain has refused to consent to the arbitration of the Alabama claims, unless the United States agree to surrender certain important international principles to which she has always adhered. The case wears a warlike aspect, but it will end peaceably.

The loss of life by the earthquake in the island of Mysteleng, on the 6th of March, was fearful. About a thousand persons were buried under the ruins of the chief town, and some hundreds in Molino, while almost every village has its list of similar calamities.

A motion was made on Friday in the Supreme Court of the United States, on behalf of the State of Mississippi, for an injunction to restrain the enforcement of the Military Government Act. Attorney General Stansberry appeared to resist the motion. The petition was filed, and the hearing went over to next Friday.

The N. Y. *Herald's* Havana correspondence of March 29th says that a revolution in Hayti which had taken place was of the most bloody kind. The loss on the part of the Revolutionists was very heavy, and the streets of Port Au Prince were literally covered with the dead. This is the fifth attempt to put down Geffrard's government. Geffrard succeeded in getting the upper hand of the insurgents, after a desperate engagement.

A Committee on Foreign Relations of the Senate have agreed to report the Russian Cession Treaty back to the Senate on Thursday next, without any recommendation. The friends of the treaty claim that it has gained strength, and if the Senate remains in session two weeks that it will be ratified by the two thirds vote. The action of the Senate is not final, however, as the seven and a half millions of gold cannot be appropriated without the assent of the House. The House Foreign Affairs Committee are represented as being in favor of the treaty.

The latest from Mexico is to the effort that Vera Cruz is in a state of siege. Sixteen hundred men, with five pieces of artillery, were inside. Provisions were high, but there was no blockade from the seaside. Outside the city there were three thousand men with four small Napolean field pieces. Men and guns were expected daily. Mejia was in Queretaro with ten thousand men, with no money or provisions. Outside there were twenty five thousand Liberals. Merida, Yucatan, was also in a state of siege, but still in communication with Sisal, the seaport of Merida.

STATE ELECTIONS.

Rhode Island.

PROVIDENCE, April 3.—The State election to-day resulted in the success of the Republican ticket for State officers, Members of Congress and State Legislature. The vote was very light. Mr. Dixon is re-elected to Congress in the Second District by about 2,200 majority. In the First District Mr. Jenks is re-elected without opposition. The State officers elected are Governor, A. E. Burnside; Lieutenant Governor, Wm. Greene; Attorney General, Millard Sayles; Secretary of State, John R. Bartlett; General Treasurer Geo. W. Tow. The Senate will stand, 28 Republicans and 6 Democrats, House, 62 Republicans and 8 Democrats.

Connecticut.

HARTFORD, April 2.—The returns are nearly all in, and the result will be as follows:

The Democratic State ticket is elected by 700 majority.

The net Democratic majority on the Congressional vote is 1,800, and the average Democratic on the whole ticket 1,200.

Hotchkiss (Dem.) is elected to Congress, in the Second district, by 2,500 majority.

Hubbard (Dem.) is elected in the First district, by 500 majority.

Wm. H. Barnum (Dem.) is elected in the Fourth district, by 500 majority.

The Republicans elect Starkweather, in the Third district, by 1,700 majority.

The Legislature will be Republican by a small and reduced majority in each House.

☞A South Carolina correspondent of the New York *Times*, says it is clear the colored men will not vote as a unit. He says there are three classes. First, those who were free before the war, and who will vote with the old white population; second, the idlers who have left the plantations and live a thriftless life, who will go the most Radical ticket they can find; third, the largest class of all, who work and thrive, and who are inclined to support the Republican cause, but will do as their interest dictates. They however, derive their employment from white men, and will consequently be much influenced by them. They will not be likely to put their livelihood in jeopardy for any mere political end. The writer concludes thus: "In view of these facts, I find that the shrewdest observers here are of the opinion that either a majority of the blacks will be found supporting the whites at the polls, or that if this should not be the case, the freedmen's vote will be divided so as to become a matter of little comparative importance."

Recruiting in the regular army is said to be more brisk than it has been at any previous time since the war. The dullness of business is leading many men who were in the volunteer service during the war to now enter the regular service.

The belligerent forces in Mexico, as taken from Mexican papers, official and others, are as follows: The Republican army consists of 69,700; the Imperial army consists of 16,000 men, and, more or less, of 10,000 national guards in the cities now in their power.

Consideration of the Russian-American treaty is likely to be deferred until December. Seward is urging its ratification, and thinks that if the offer is not accepted the territory will be given to some other power. The British representative continues excited about the matter and hopes for the postponement of action by the Senate.

After this year the postage between the United States and Great Britain will be decreased. By the schedule agreed upon by the Governments, the cost of sending a letter from any part of the States to any part of the United Kingdom will be fourteen cents—twelve cents for the passage of the ocean and delivery in England, and two cents while in our local post office.

In the course of the physical researches necessary for ascertaining, by the passage of electricity through the Atlantic cable, the difference of longitude between America and England, it has been found that the time required to pass through the Atlantic cable is thirty-one one-hundredths of a second. This is equal to a velocity of six thousand and twenty miles a second, considerably less than the speed of the electric fluid through land lines.

The Lorain (Ohio) county NEWS says that "the young ladies of this place walk on their tip-toes, and can't help it, as the waterfalls on the top of their heads draw up their back hair so tightly that they can't put their heads down squarely without great pain." Of which the editor of the Cleveland HERALD says, "that editor must look out for a 'waterfall' on his own head from some window for his insolence."

A young lady named Eller, living in Hamilton county, Indiana, was suffering intensely in the last stages of hyprophobia, with every prospect of death. All ordinary remedies having failed, she has been relieved by the use of bromide of potassium, recommended by some European physicians as a remedy. Six days have elapsed since it was first administered, and the symptoms are favorable for her recovery.

A good wife is one who puts her husband in at the side of the bed next to the wall, and tucks him to keep him warm in the winter; splits the wood, makes the fires in the morning, washes her husband's face, and draws on his boots for him; never scolds, never suffers a rent to remain in her husband's small clothes; keeps her shoes up at the heel and her stockings darned; never wonders what her husband sees interesting in the young woman who lives across the way, and always reproves the children when they eat their father's supper.

Numerous breaks in the levees assure the devastation of the richest portion of Southwestern Louisiana. The giving way of the levee at Morganzia, overflows seven parishes. This levee was one of the largest works of the kind in the world, and was but recently completed. Work is progressing on the Roman crevasse, fifty-six miles above the city, with some hope of closing it. The most recently reported break, nine miles below Baton Rouge, will do immense damage. The overflowing of this section of the State will cause great suffering among the poorer classes of whites, and will throw thousands of freedmen upon the resources of the bureau during the coming season.

Terrible Explosion in a Coal Pit.

Wednesday morning, at 7 o'clock, a terrible explosion occurred at the coal pit of the Rush Run, on the Cleveland and Pittsburgh Railroad, eleven miles below Steubenville. The Steubenville *Herald* says the curbing sixty feet from the mouth of the pit was out of order. Thos. Payne, Luke Harris and Thos. Paton descended with tools to repair the curbing, and in five minutes after they had announced their safe landing on the platform, a most terrible explosion occurred, blowing the beams of curbing, stones and dirt out of the pit, with such force as to lift the roof off the building. Paton was blown out of the pit against the roof, and fell with a mass of timber directly across the bunton over the mouth of the pit, entirely dead and very much burned and disfigured. Several of the workmen standing near the pit were slightly injured and stunned by the falling timbers. The smoke and gas for a time made it impossible to approach the pit. A stream of water, however, was quickly turned in, which purified the air in an hour sufficient to allow workmen to descend. On examination it was found the platform and curbing had wrecked the shaft so as to prevent a passage to the bottom, some two hundred feet below the platform, where the other men had fallen Up to noon, Wednesday, the bodies of Payne and Harris had not been recovered. It is supposed the explosion was the result of carelessness on the part of the workmen, in removing a part of or making a vent in the platform, through which the gas became ignited by the lamps.

The Johnstown Catastrophe.

A correspondent of the Cambria *Freeman* has the following in regard to the arbitration of the suit between Pius Klug and Daniel McPike and the P. R. R. Co., at Johnstown:

"The arbitrators appointed by the Court to receive evidence in the case of certain sufferers by the 14th of September catastrophe here vs. the P. R. R. Co., met agreeable to appointment in the basement of the new Lutheran church on Tuesday afternoon last. A few witnesses were examined, when the board adjourned until evening. The building committee of the church, concluding in the meantime that the church would not be benefitted by the mixed congregation which would assemble therein, turned the key on the arbitrators, and they were compelled to adjourn to the Council Chamber. The suit lasted four days, and some forty witnesses were examined, when the case was submitted with argument for prosecution by R. L Johnston, Esq., and on part of the defence by Hon. John Scott. The arbitrators, John A. Blair and H. Kinkead, Esqs., of your place; and G. W. Osborne, Esq., of Johnstown, after due deliberation returned a verdict to the effect that the P. R. R. Co., shall pay to Daniel McPike $1,300 and to Pius Klug $3,000, with costs of suit in each case. Mr. McPike had suffered a compound fracture of one leg, by which he will be crippled for life. His claim for damages amounted to $30,000. Mr. Klug was seriously injured internally, and claimed like damages. These were merely test cases, as many others have entered suits for damages sustained at the unfortunate breaking of the platform."

Most Singular Occurrence.

One of the most singular freaks of nature that ever came to our knowledge was to be seen on Tuesday at the stable of Mr. E. E. Evans, in this boro., in the shape of a deformed a calf, all the legs of which had been inverted, as if by extension, parallel with the body, so that while the proper sides of the flanks were outward, the legs were pointing upward over the back. As a consequence, the hind parts were thrown forward, so that the rump was nearly midway between the fore and the hind legs. The ribs, the stomach, and the entrails were thrown as it were on the calf's back. What was properly the inner side of the ribs was outward, and between the ribs, and hanging over them, was the viscera enclosed in the usual sac or pouch. The head was perfect, but thrown down between the fore legs. In case the calf would have walked, the head would have been in the position described, the ribs would have stood on the back, somewhat like the hump of a dromedary, but without any hide or covering other than the sac that enclosed them and the viscera, the fore part of the hind legs would have been to the rear, and the rump would have been under what should have been the body. This singular deformity was living until a short time before it was calved. The cow that gave existence to it is "doing well."—*Ebensburg Alleghenian.*

Railroad Accident.

The Cincinnati Express train due here on Sunday afternoon, while passing around a curve, about a mile east of Turtle Creek, in Allegheny county, ran into a cross tie and rail which had been securely placed on the track, and threw the baggage and express cars, and two passenger coaches down a bank, completely demolishing them. Martin Bratton, one of the brakesmen was discovered tightly wedged between the two passenger coaches, and injured internally, it is thought beyond recovery. Robert Kerr, engineer, was injured severely on the head and side, and Mr. Wilhelm, the baggage master, was injured slightly on the shoulder. Fortunately none of the passengers were seriously injured. A man named Patrick Monaghan was discovered hiding behind a fence, who was found to be one of the authors of the mishap. He is represented to be a crazy individual, and has been committed to the county jail several times for vagrancy. He is now in the Allegheny prison. The damage to the track has been repaired, and the trains run as usual.

Children out at Night.

The practice of allowing boys to spend their evenings in the streets, says an exchange, is one of the most ruinous, dangerous and mischievous things possible. Nothing so speedily marks their downward course. They acquire, under cover of the night, an unhealthy state of mind, vulgar and profane language, obscene practices and criminal sentiments, with a lawless and riotous bearing that is shocking to contemplate. It is in the byways after nightfall, that boys generally acquire the education and the capacity for becoming rowdy, dissolute, criminal men. Parents, do you believe it? Will you keep your children at home nights, and see that their home is made pleasant and profitable? And if this is true of the boys, which no one can deny, how much more necessary is it that girls should be kept at home after dark. Nothing good comes of their gadding about when they should be at home, enjoying the social influence of the family circle, and thus fitting themselves for future usefulness, and becoming ornaments to society.

☞ Another fresh arrival of Goods at Johnston & Wattson's Cheap Store.

Postmasters Attention.

Postmasters who take the liberty of loaning *Globes* we send to our subscribers, will take notice that the Department will be notified of their conduct, and a change had if possible. We are tired hearing our subscribers complain of the frequent loss of their papers, after they are received at their proper post offices. Men too Radical or too Democratic to support an independent paper should at least be honest enough not to appropriate to their own use that which is not their own.

☞ Johnston & Wattson sell Muslins, Calicoes, Gingham, &c., &c., cheaper than any other store in the county.

Our Post Office Again.

Ten days ago Mr. F. B. Wallace was nominated by the President, but the Senate made short work of him—he was rejected. On Friday last the President nominated Mr. John S. Miller for the position—he too will be rejected or Simon will go behind his pledges to his few friends here. Mr. Ash. Miller is still acting P. M. with Mr. "Ike" Hildebrand as Chief Clerk, and a better cannot be put in the office. Hope he may stay there.

☞ If you want to buy Carpets, Oil-cloths, Window Blinds, Queensware, Cedar ware, &c., &c., go to the Cheap Store of Johnston & Wattson.

Court Week.

The April sessions have commenced. There is much business to be attended to, although little of a criminal character.

As this is the term that our country friends and patrons attend the best, we invite those indebted to call at our office and square accounts "between them and us," and also extend an invitation to those who want the *Globe* to come and subscribe.

Thoughts for the Farmer.

Horace Greeley on Farming.

The New York *Tribune* thus discourses in reply to a letter asking practical advice relative to farming:

"Your chief danger is impatience.—If you or your wife would not get disgusted with farming the first year, it is quite unlikely that you ever will.—Begin with a distinct understanding that you will not make money at first—that you will almost certainly be poorer at the close of your first year's farming than when you began it.—Your land will be in poor condition; you will have to do two days' work for futurity to every one that tells directly on the production of this year's crop. You will suffer by drouth and flood, heat and frost, hail and insects; and will be led to conclude that farming is a hard business, and its rewards very meagre and uncertain. But all these are passing clouds, to dispel which you have but to persevere.

"Resolve to grow what you need and to consume your own products so far as may be. We don't object to give a bushel of good potatoes or a barrel of turnips for a pound of middling tea; but half a dozen such exchanges per annum are decidedly preferable to a hundred.

"Be sure to average five days per week on your homestead. There are farmers who do not mean to be shiftless, and who can do a fair day's work when they set about it, yet who have so much 'business' that takes them off this way and that, that they do not average three square days' work per week. Those farmers are heading straight toward the poor-house. Can you wonder that they deem farming a beggarly pursuit.

"Don't fear that you will overstock the market. This city, like most American cities, ought to consume treble the fruit she does, and would if it were reasonably cheap. Good grapes can be grown at the cost of wheat—say five cents per pound—yet they retail here at fifteen to thirty cents per pound. At ten cents, the consumption would probably double annually for the next four years at least. Peaches of late sell here at most exorbitant prices. Berries, save when most plentiful, cost far more than they should. One hundred thousand acres well set in fruit this year would not begin to glut the markets of our great Atlantic cities. Bear in mind that each child over seven years old can help you if you grow fruit.

"For $1,000, you can buy a habitable cottage and five to twenty acres of warm, mellow, tractable soil. A team and cow will cost you $500 more; leaving you a balance for implements, seeds, provisions, &c. And, if you practice frugality and live largely on your own products, that will just do.

"If you prefer to raise grain and grow stock, you will naturally go West, where land is cheap and grass abundant. You may there buy 160 acres of land for $1000 or less in many civilized localities, and will be apt to do it, though it is more than you really need. But we may take another opportunity to speak of farming in the West, where success is not more decided, but where failure is more difficult than in older communities."

WHITE CLOVER.—We are satisfied that our farmers do not appreciate the white clover so highly as they ought nor take as much pains as they should to cultivate it. In fact, but very few sow it when they lay down their lands to grass. They trust to nature to supply them with it. When once seeded with it, the soil will retain it a long time, for the low short stems will bear heads full of seeds, and these become scattered out into the soil and thus the seed is kept in the ground, and springs up whenever circumstances are favorable for its development. A moderately clayey loam is congenial for it, and if this be dressed with an occasional dressing of plaster, it will bring it out abundantly. It affords an excellent pasturage for bees, the best honey in the world being obtained by these little insects from white clover. It also affords the best pasturage for cattle, especially cows from whose milk cheese is manufactured, as experiments have proved that cows that graze upon this species of clover yield milk that contains casein, or cheesey particles, in greater abundance than they do when fed on the common grasses. We throw these hints out for our readers to think of. Four or five pounds, mingled with a due quantity of other grass seed will be sufficient for an acre, and it can be obtained at reasonable prices at the agricultural stores.—*Maine Farmer.*

TRANSPLANTING TREES.—If people planting orchards would give strict orders to mark the north side of trees with red chalk before they are taken up, and when set out to have the tree put in the ground with its north side to the north in its natural position, a large proportion would live. Ignoring this law of nature is the cause of so many transplanted trees dying. If the north side is exposed to the south the heat of the sun is too great for that side of the tree to bear, and therefore it dries up and decays.

PHOTOGRAPH

MARRIAGE CERTIFICATE

PATENT APPLIED FOR.

Hitherto there has been nothing introduced in way of a Marriage Certificate that has excited any interest or attraction; but the originators of the PHOTOGRAPH MARRIAGE CERTIFICATE claim that they have gotten up something that will be most heartily welcomed by all persons now married and all those who contemplate marriage.

Size and Plan of the Marriage Certificate.

The size of the Certificate is 19 by 14 inches. It contains a beautiful figure representing the union of two hearts. Above the figure is written in beautifully ornamented German Text the words "Photograph Marriage Certificate." There are three spaces in the figure on the space in the center the Certificate proper is written. The words, "two hearts in one" form an arch over the Certificate proper, and immediately under the arch there is a beautiful figure representing the joining of hands, and where the centre space comes to a point there is a picture of two beautiful turtle doves. On the space to the left there is a place for the photograph of the gentleman and under it we have the words, "To the Husband," in ornamental text, under which we have selections of Scripture passages addressed to the husband. On the left side of the engraving we have a place for the Photograph of the wife. Immediately under which we have the words, "To the Wife," in ornamental text, under which are appropriate passages of Scripture addressed to the wife. Over the space for the photograph of gentleman we have written in Old English characters, the following appropriate passage of Scripture: "It is not good that the man should be alone," and over the space for the photograph of the lady, we have the corresponding words: "I will make him an help meet for him." At the lower extension of the figure of the hearts, we have the hearts bound together or encircled in part by these words: "What therefore God hath joined together let no man put asunder." The Certificate is so constructed that card photographs of both bride and bridegroom can be inserted without the least possible difficulty. Indeed everything connected with it is so elegant, attractive and desirable that many single persons seeing the Certificate have been so much pleased with its appearance, that they purchased on sight one of these beautiful parlor ornaments.

A specimen copy of the Photograph Marriage Certificate will be carefully put up and sent by mail free, on receipt of the retail price, which is ONE DOLLAR.

NEW BOUNTY LAW PASSED!

Attention, Discharged Soldiers!

The Act of Congress approved July 28, 1866, gives $100 additional bounty to all soldiers who enlisted for three years and were discharged by reason of expiration of service, or who were discharged for wounds received in battle and who have not received more than $100 bounty for such service. An additional bounty of $100 is also allowed to the nearest relative of soldiers who enlisted for a term of three years and who died or were killed in the service, to be paid in the following order: First, to the widow; second, to the children; third, to the father, and fourth, to the mother.

Soldiers' Widows.

By applying to W. H. Woods, of Huntingdon, Huntingdon county, Pa., you can have your pensions increased two dollars a month for each and every child you have, and when the widow has married or died, the children are entitled to the increase.

To all who have brought home the bodies of their friends who died or were killed in the service of the United States, there is a certain amount of compensation allowed you for the expenses incurred in bringing home the bodies of your friends, which you can obtain by making application to me.

Invalid Soldiers, Attention!

The act of Congress, approved June 6, 1866, gives additional pensions to the following class of persons:

Soldiers who have lost both eyes or both hands, $25 per month; who have lost both feet $20 per month; who have lost one hand or one foot, or totally disabled in the same, $15 per month.

Persons who have been deprived of their pensions in consequence of being in the civil service of the United States Government, can be restored to the pension roll by applying to me.

Fathers and mothers who were in whole or in part dependent upon their sons for support are entitled to a pension. Also brothers and sisters under sixteen years of age.

All discharged soldiers who did not receive transportation to their places of enlistment when discharged, are entitled to receive it; and also all who were held as prisoners of war, and did not receive commutation of rations when released or discharged, are entitled to it.

Officers who were in the service on the 3d of March, 1865, and were discharged after the 6th of April, 1865, by applying to me can receive three months extra pay.

SPECIAL NOTICE.

TO THE LADIES.—Do you really intend to cease wearing the beautiful styles now so prevalent, or dress less elegantly, because the rebel Jeff. Davis, was captured in Fashionable Female attire? One moment's calm reflection will surely serve to change your rash resolve. The angels had too much good sense to lay aside their pure chaste robes of white, because they had for a time served to hide the deformities of that Prince of Rebels, the Devil. Can you err in following the example of Angels? Then having made up your minds that you will continue to dress tastefully regardless of rebel acts, *do not forget to call at the store of the subscribers, who will be happy at all times to furnish you with such articles of dress as you may desire.* Urge your fathers, husbands, brothers, neighbors and children to visit the same store. They can here be suited in good articles of Boots, Shoes, Clothing Material, Hats, Caps, Queensware and a general assortment of Groceries, on as reasonable terms as at any House in town. Store on Southeast corner of the Diamond, Huntingdon, Pa.

LATEST FASHIONS DEMAND

J. W. Bradley's Celebrated Patent

Duplex Elliptic

or Double Spring,

SKIRT.

The wonderful Flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, operas, carriages, railroad cars, church pews, arm chairs, for promenade and house dress, as the skirt can be folded when in use to occupy a small place as easily and conveniently as a silk or muslin dress, an invaluable quality in crinoline, not found in any single spring skirt.

A lady having enjoyed the pleasure, comfort, and great convenience of wearing the duplex elliptic steel spring skirt for a single day, will never afterwards willingly dispense with theirs. For children, misses and young ladies they are superior to all others.

They will not bend or break like the single spring but will preserve their perfect and graceful shape when three or four ordinary skirts will have been thrown aside as useless. The hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered; preventing them from wearing out when dragging down stoops, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the *standard skirt of the fashionable world.*

To enjoy the following inestimable advantages in crinoline, viz: superior quality, perfect manufacture, stylish shape and finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or double spring skirt, and be sure you get the genuine article.

CAUTION—To guard against imposition be particular to notice that skirts offered as "Duplex" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs" upon the waist band—none others are genuine. Also notice that every hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other spring.

For sale in all stores where first class skirts are sold throughout the United States and elsewhere.

Manufactured by the sole owners of the patent.

PROF. H. M'ENTYRE'S GREAT REMEDY,

THE

INDIAN COMPOUND

Internal and External Medicine,

WILL CURE:

☞ Diarrhœa, Bloody Flux in one day,
☞ Headache and Earache in three minutes.
☞ Toothache in one minute.
☞ Neuralgia in five minutes,
☞ Sprains in twenty minutes,
☞ Sore Throat in ten minutes,
☞ Cholic and Cramp in five minutes,
☞ Rheumatism in one day,
☞ Pain in the Back or Side in ten minutes,
☞ Bad Coughs or Colds in one day,
☞ Fever and Ague in one day.
☞ Cures Deafness, Asthma, Piles,
☞ Bronchitis Affections, Dyspepsia,
☞ Inflammation of the Kidneys, Erysipelas,
☞ Liver Complaint and Palpitation of the Heart.

Keep it in your Families—Sickness comes when least expected.

I propose to check, and effectually dissipate more ache and pain, and to accomplish more perfect equilibrium of all the circulating fluids in the human system, than can be effected by any other, or all other methods of medical aid in the same space of time.

THIS POPULAR REMEDY is fast coming into use, for the fact that I cure, free of charge, all those complaints whenever there is an opportunity to do so. As soon as it is applied it almost miraculously kills the pain. I do not ask you to buy before you are certain of its efficiency. If you have an ache or pain, it is warranted to do all it purports on the label.

I do not propose to cure *every* disease—only a class named by my directions. My liniment operates on chemical and electric principles, and is, therefore, appliable, to the cure or natural restorative of all organic derangement arising from an improper circulation of the nerve vital fluids.

Prof. J. H. McEntyre's INDIAN COMPOUND acts directly on the absorbents, reducing glandular and other swellings in incredible short time, *without any possible danger from its use* under any possible circumstances.

This is an internal and external medicine—composed of roots, herbs and barks, such as our forefathers used.—There is a bountiful supply on earth to cure all complaints if we only know what they were.

This has been a great study with the Medical Faculty for many years, to find out the kinds best adapted to the above complaints—how to put them together, and what proportions to use. J. H. McENTYRE,
Proprietor, Reading, Pa.
